AI Med Spa Marketing Command Center (2026 Edition)

Product subtitle

The 40-prompt + 10-checklist system that turns Copy.ai, Canva, Synthesia, AdCreative.ai, and Speechify into a 90-minute weekly marketing department for your med spa.

Description (sales copy)

You opened a med spa to deliver beautiful results, not to spend Sunday nights rewriting treatment pages, resizing Instagram promos, and wondering which seasonal ad will fill the consult calendar.

The AI Med Spa Marketing Command Center is the exact system AI ToolKit uses to run med spa marketing in 2026. Inside you get 40 ready-to-copy prompts and 10 production checklists covering the five jobs that actually keep a med spa schedule full:

Treatment and consult copy - service pages, email sequences, social captions, review responses.

Branded visuals - treatment guides, promo graphics, before-and-after carousels, email headers.

Camera-free explainer video - consult walkthroughs, treatment FAQs, and seasonal promos without a film crew.

Paid ad creative - conversion-scored Meta/Google ad variants for seasonal pushes.

Audio content - treatment guides and industry updates you can absorb between patients.

Every prompt is built for the affiliate tools we test and recommend: Copy.ai, Canva, Synthesia, AdCreative.ai, and Speechify. Drop each prompt into the tool, fill in the bracketed fields, and publish.

No blank-page syndrome. No 500-tool research spiral. Just a repeatable 90-minute weekly workflow.

What you get:

- 40 copy-paste AI prompts (PDF + Markdown)
- 10 weekly production checklists
- The 90-minute med spa marketing workflow
- Tool-stack map with free-vs-paid picks
- Compliance reminders built into every ad and photo prompt

Price: \$17

The AI Med Spa Marketing Command Center

40 Prompts + 10 Checklists for Copy, Visuals, Video, Ads, and Audio

For: Med spas, aesthetic clinics, injectors, and wellness studios

Built a

How to use this pack

Pick the section matching this week's bottleneck.

Copy the prompt into your tool (Copy.ai for text, Canva for design, Synthesia for video, AdCreative.ai for ads, Speechify for audio).

Fill in every [BRACKETED] field before running - generic inputs produce generic content.

Route any claim about results, safety, or guarantees through your medical director before publishing.

Part 1 - Copy.ai prompts (copy: 10 prompts)

1. Treatment page refresh

Rewrite this treatment page for my med spa. Treatment: [TREATMENT NAME].

Target

2. 4-email seasonal promo sequence

Write a 4-email seasonal promo sequence for [SEASONAL OFFER] at my med spa.

Email

50. Audio blog series

Convert my 3 most-visited blog posts ([TITLES/URLS]) into an audio

The 90-minute weekly workflow

- Monday (45 min): Copy.ai batch - treatment page refresh, one email campaign, Instagram caption set, review responses. Canva - one promo graphic + one carousel from the batch.
- Wednesday (20 min): Synthesia - one patient-education or promo video. No camera, no editing.
- Friday (25 min): AdCreative.ai - refresh or extend the active seasonal campaign. Speechify - convert one piece of content (guide, FAQ, newsletter) to audio.

The 10 production checklists

- Monday content batch - inputs, prompts, QA steps, publish targets.
- Wednesday video - script approval, avatar/brand template, caption and thumbnail steps.
- Friday ads - variant review, medical-director sign-off, budget check, launch steps.
- Review-response routine - daily 10-minute loop for new reviews.
- Compliance pre-publish - claims checklist, photo-consent check, platform policy scan.
- Email campaign - list segment, sequence selection, send windows, tracking links.
- Seasonal promo launch - 3-week runway from creative to final-day urgency.
- Membership campaign - pitch page, email, ad, and front-desk script touchpoints.
- Quarterly content audit - what produced bookings, what to retire, what to double.
- Monthly analytics review - consult requests, email revenue, ad cost per lead, video watch-through.

Minimum viable stack: Canva (free) + Copy.ai (\$29/mo) covers the Monday batch for under \$30/month. Add Synthesia when patient-education video becomes a recurring request, AdCreative.ai when seasonal paid campaigns go live, and Speechify on day one if your calendar is already overflowing.
